## **Veterans Health Benefits & Access to VA Care**

If you need to obtain information regarding your VA health care benefits, please contact the Eligibility office at **(320) 255-6340**.

## **Insurance**

In 1985, the U.S. Congress passed the Medical Care Cost Recovery Act. This Act requires the Department of Veterans Affairs to bill third party health insurance for medical care provided to Veterans for treatment of their non-service connected conditions or disabilities.

## **Income Verification Matching**

Public law allows the VA to compare Veteran-reported means test income data with the IRS and Social Security Administration records.

If your eligibility for VA medical care is based on income, you will be asked to provide income and dependent information for yourself and your spouse. All Veterans are asked to provide health insurance and employment information. Your VA means test is based on your prior year's gross income and must be updated annually.

**Care not provided:** Emergency medical care, Pediatric care and Maternity care.

**Detoxification care:** Patients who have scheduled admissions to Mental Health programs should check in at Building 111. Others will be evaluated where they present.

## **Emergency Care in Non-VA Facilities**

At some time in your life, you may need emergency care. **When you need emergency care, you should go to the nearest hospital that has an emergency room.** If you go to the hospital in an ambulance, the paramedics will usually take you to the closest emergency room.

### **What is a medical emergency?**

A medical emergency exists when an injury or illness is so severe that without immediate treatment the injury or illness threatens your health or your life.

### **How do I know if I'm having a medical emergency?**

Use your best judgment. If you believe you are suffering from an emergency call 911 or go to the nearest emergency room.

### **Do I need to call the VA before I obtain emergency care?**

No. Call 911 or go to the nearest emergency room. If you are admitted, your family, friends or hospital staff should contact the nearest VA Health Care System as soon as possible to provide information about your emergency room visit.

### **Does my enrollment in the VA Health Care System change my coverage for emergency care at VA expense?**

Yes, it may. The VA Health Care System's Fee Basis clerk can explain your options. You may reach the Non VA Medical Care department at (320) 255-6483.

**Does my other insurance (TRICARE, Medicare, Medicaid, Blue Cross, etc.) change my VA coverage for emergency services?**

Yes, it may. A VA Health Care System Non VA Medical Care clerk can explain your options. You may reach the Non VA Medical Care department at (320) 255-6483.

**Will VA pay for emergency care if I am in jail?**

No. Usually, the jail has the responsibility for providing you with medical care.

**Will VA pay for emergency care received outside the United States?**

If you are outside the United States and being treated for a service-connected condition the VA will pay for emergency care. The VA will not pay for emergency care related to non service-connected conditions. Contact the VA Health Administration Center at (877) 345-8179 for more information, or go to <http://www.nonvacare.va.gov/>.

**How long do I have to file a claim for reimbursement for emergency medical care?**

Please file your claim with the nearest VA Health Care System or Medical Center quickly. If your regional office recently determined your benefits, you should submit a reimbursement claim as soon as you can. Time limits usually apply. Contact the Health Care System's Non VA Medical Care department at (320) 255-6483 for an explanation of these limits.

**Will I have to pay for any part of my emergency care?**

It is possible. Sometimes co-pays are required based on your VA enrollment. Sometimes the extent of healthcare services reimbursable by the VA are limited by federal law.

The VA may be able to arrange and pay for the health care of eligible Veterans outside of VA medical facilities – but only in certain, limited circumstances.

- When the Veteran meets eligibility criteria
- When there is a medical need
- When VA medical facilities (or 'sharing agreement' facilities) are not available

The VA's ability to pay for the medical care of Veterans provided by the community is regulated by federal law.

**If I am admitted to the hospital as a result of an emergency, how much will VA pay?**

This depends on your VA eligibility. The VA may pay all, some, or none of the charges. Contact the Non VA Medical Care department at (320) 255-6483 about what is allowed under non-VA emergency care programs:

- For service-connected conditions
- For non-service-connected conditions

You can get more answers to your questions on the Veterans Health Administration website at [www.nonvacare.va.gov/](http://www.nonvacare.va.gov/) under Non-VA Care.

**You may also contact the Non VA Medical Care department in the St. Cloud VA Business Office at (320) 255-6483 for details about your specific situation.**

## Pharmacy Services

The VA Pharmacy provides a wide range of medication and medical supplies for patients who are eligible for and receive VA services.

### **Can I get my medications at the VA?**

Yes. Your VA provider will evaluate your medical condition and prescribe the medications you need.

### **Each time you meet with your provider**

- **Bring a list of all medications you are currently taking.** This includes medication you are receiving from the VA, prescriptions you get from another pharmacy, over the counter medications and any herbal supplements you may be taking.
- **Following your appointment, visit the Pharmacy Intake staff. This is required for you to get your prescriptions filled.** You will receive important education about new prescriptions and will have the opportunity to ask questions and identify which medications you wish to receive from the VA. Inform Pharmacy staff if you do not wish to receive a medication or refill. If you need medication on the day of your visit, your prescription will be processed and available for pick-up in the central Pharmacy (Building 5.)

### **How do I request a prescription refill?**

***Please be sure to request prescription refills at least two weeks before you will need a new supply to be sure you don't run out of your medication.***

- ***Following an appointment at which your medications are prescribed, your prescriptions are mailed to you unless you notify us otherwise. Refills are not sent automatically. It is important for you to speak with a member of our Pharmacy staff when you need medication or medical supplies provided by the Pharmacy.***

- **By mail:** Each time you receive a prescription, you will receive a refill request form. If this form is misplaced, you can request a refill in a letter. Mail your request at least two weeks before you will need a refill to:

**Pharmacy Service (PH-119)  
VA Health Care System  
4801 Veterans Drive  
St. Cloud, MN 56303**

- **At the VA:** You may visit the Pharmacy Intake staff located in the clinic area and make your request.
- **Through the VA's Web portal:** [www.myhealth.va.gov](http://www.myhealth.va.gov)
- **By Telephone (using a touch-tone phone):** 1 (855) 560-1724
- **By calling the Pharmacy Triage staff:** (320) 255-6345  
Monday - Friday between 8 a.m. and 4:30 p.m.
- **By using the Automated Phone Service System.** Call: 855-560-1724 to access the system to order refills, check status of refills, and to receive refillable prescriptions by mail. To use the system you will need your SSN and your current prescription numbers.

### **Does the VA have all the medications I need?**

The VA pharmacy carries a wide variety of medications. Deciding which medications are right for you is a shared responsibility between you, your VA provider and your VA pharmacist. Because the VA is not able to carry every medication available on the market, you may not get a particular brand name medication. Your provider and pharmacist will select the best medication for you.

### **Will I need to pay for my medications and medical supplies?**

Some Veterans are required to make a co-payment for medications. There is no co-payment charge for medications used to treat service-connected conditions. Prescription co-payments for non service-connected conditions are determined by your VA eligibility status.

If you have questions about your eligibility or co-payment requirements, please call the VA Eligibility Office at (320) 255-6340, Monday – Friday, between 8 a.m. and 4:30 p.m.

### **Will the VA Pharmacy fill prescriptions I get from a private provider?**

***If you receive care from a community provider, you should discuss your medication needs with your VA provider during your next scheduled appointment.*** If there is agreement about your diagnosis and the treatment needed, your VA provider may prescribe the same or similar medication. **The VA Pharmacy is only authorized to fill prescriptions written by VA health care providers.**

You are responsible for providing the VA with all necessary records and documentation from your community provider. To have an outside prescription filled at your VA pharmacy, ask your community clinic to send the following information:

1. A copy of your non-VA prescription.
2. A copy of your discharge summary if prescriptions are related to a recent hospitalization. or

A copy of your non-VA provider's progress notes and lab results from the appointment during which your community provider wrote the prescription.

3. Mail to: Triage Clerk (PM-136A)  
VA Health Care System  
4801 Veterans Drive  
St. Cloud, MN 56303

**Fax copies are also accepted at (320) 255-6416**

***Please Note:** It may take several days for VA staff to review the prescription and medical records from your community provider. You should make arrangements to get your medications from a community pharmacy if your provider tells you that you should start taking medication immediately.*

## Telehealth Program

The telehealth program uses virtual care methods, primarily high-speed internet and video-conferencing, to provide care and services for Veterans in one location while the health care provider is at another location. Telehealth is convenient, in that it eliminates excessive travel to VA facilities, and can be an important part of keeping you healthy.

St. Cloud VA uses three types of telehealth:

--Home Telehealth (HT) places equipment in your home so you can routinely send health status monitoring data to your assigned Care Coordinator. Veterans use Home Telehealth for such diseases as diabetes, depression, chronic obstructive pulmonary disease, hypertension, heart failure, and MOVE weight management.

--Store and forward Telehealth (SFT) is used for Veterans with known diabetes. To prevent a well-known eye disease caused by diabetes, diabetic retinopathy, detailed photographs of the retina are taken by a local technician and electronically sent to a doctor at a central reading center.

--Clinical Video Telehealth (CVT) is a live video connection with a specialist at another location. The technology involves a camera and a monitor.

***Please talk to your Primary Care provider to see if you can use Telehealth in your health plan.***

## My HealthVet - Online Personal Health Record

**Once enrolled, Veterans can sign up for Myhealthvet, an online service that enables Veterans to refill prescriptions online, get automatic wellness reminders, and participate in secure messaging with their health care team.**

**Learn more at [www.myhealth.va.gov](http://www.myhealth.va.gov).**

My HealthVet is VA's award-winning online Personal Health Record. My HealthVet provides Web-based tools that help Veterans become active partners in their own health care, allowing them to make informed health decisions and store important health information. Through My HealthVet, Veterans can access trusted, secure, and informed health and benefits information, at their convenience.

To access MyHealthVet, go to [www.myhealth.va.gov](http://www.myhealth.va.gov) and follow the instructions on how to register. To fully access your My HealthVet Personal Health Record complete an In-Person Authentication (IPA) at the Health Care System's Release of Information Office or one of the VA's Community Based Outpatient Clinics. This will allow you to access all MyHealthVet features, such as:

- Activity & Food Journals
- Healthy Living Centers
- Log your Military Health History
- Personal Health Journals
- Trusted Health Information
- VA Benefits & Services
- VA Prescription Refills
- Health Information Tracking & Graphing
- View Lab Results

Veterans who have completed their In-Person Authentication can also view appointments, use secure messaging and receive wellness reminders.

## Secure Messaging - Online Personal Health Communication

### Communicate with your health care team online!

You can now take advantage of online communication with your VA health care teams. Secure Messaging, a feature of the *My HealthVet* website, is a safe and secure, electronic mail system that allows you to communicate **non-urgent, non-emergency** health-related information with your VA health care team.

Some uses of Secure Messaging include:

- Getting test results and health information
- Requesting medical appointments
- Resolving hearing aid issues
- Prescription questions

You will find that with Secure Messaging you will not have to sit on hold or play phone-tag with your health care team. Secure Messaging does not replace the telephone; rather it complements the telephone and helps increase communication opportunities between patients and health care teams.

All you have to do to take advantage of Secure Messaging is to have Internet access and then go to [www.myhealth.va.gov](http://www.myhealth.va.gov) and set up your own account on *My HealthVet* - registering as a "VA Patient."

Next, complete the In-Person Authentication process during your next trip to St. Cloud VA or one of the VA's Community Based Outpatient Clinics.

Finally, after you have been authenticated login to your *My HealthVet* account, select Secure Messaging, read the terms and conditions of use along with the privacy statement and then select "Opt-in." That is it, you are ready to go!

Remember, that with Secure Messaging your VA health care information is safe, secure and protected! So save yourself time in the future and take advantage of Secure Messaging to communicate with your health care team!

For more information about the MyHealthVet or the Secure Messaging program, contact Brian Vetter at: (320) 252-1670, ext. 7335.
