

Table 1: Average panel sizes by month, Fiscal Year 2013-current.

Notes:

- 1-Due to continuous fluctuation caused by the arrival of new patients, patient reassignments, provider reassignments and other factors, panel sizes change frequently.
- 2-St. Cloud VA employs both full and part-time providers. Full-time, established providers carry larger panels.
- 3-Panel averages for any given month are cumulative.
- 4-Displayed panel average for October 2015 (FY16-OCT) shows panel average for October 1 only. Average panel sizes for October can be computed once the month is complete.
